San Juan (2nd Edition) Role and Goods Cards by Townsfolk

The printout of this document can be used for "Role and Goods Tile" replacement in San Juan (2nd Edition). This work is highly influenced from the work done by Chris Hawks (Salt-Man Z) from BoardGameGeek*. His work* is based on the art of the first edition, whereas my work here is based on the second edition of the game. This pdf file would be originally uploaded to the 'Files' section of San Juan (Second Edition) by Townsfolk. Obviously, this cannot be used for commercial purpose; only use it for personal usage with the actually copy of the game in possession; every copyright and license is reserved to the publishers/designers/artists.

Usage Hint: If you have a decent printer that supporting relatively accurate duplexer, you can printout a pair of front and back of the cards, (e.g., page 3 and 4) in a think (300g/m^2 give or take) paper; cut out from the back. Sleeving the cards would help the game play:).
